

ForeSteel™ Developing Solutions

FT-2200

Single axle trailer **ForeSteel FT-2200** is popular due to its unique solution in the areas of public services and landscaping, as well as among hobby farmers. Because of its universality and ease of use, FT-2200 makes every work simple and offers varied applications. Three-way dumping, wide tyres with enhanced puncture resistance, easily removable side panels, an option to turn it into a platform, a multifunctional rear hatch, a snap lock of the hatch, and a hydraulic lift-limiting device implementing automatically in every direction are only some of the reasons why FT-2200 can offer remarkably more than a regular trailer.

Not to mention the added mesh top, leaf vacuum, and other extras.

In addition to the smart solution for use, small unladen mass as a result of optimised construction, and quality components, only quality materials and production technologies have been used in order to make this product in compliance with the valid EU standards.

FT-2200

Technical data for single axle 3-way tipper

Property	Value	Unit
Loading capacity	2200	kg
Platform dimensions (W x L)	1310 x 2500	mm
Inside dimensions (W x L)	1250 x 2440	mm
Total length	3880	mm
Total width	1360	mm
Total height	1082	mm
Sideboard height	300	mm
Loading height	770	mm
Volume	0,92	m ³
Volume with mesh panels (optional)	4	m ³
Net weight	485	kg
Hydraulic cylinder volume	3.5	liter
Tipping angle (rear/sides)	55 / 53	degree
Wheel size	26" x 12" x 12"	inch
Maximum speed	25	km/h

STARCO tires, DI NATALE BERTELLI hydraulics, FAD axles, LED lights

** The trailer is designed and manufactured to EU directives and has CE certificate*
